

K9 MODULE FOR ATHENA RMS

K9s are a special part of the team, and require specialized training and care.

Introducing the K9 Module for Athena RMS. Designed to keep track of every detail for each K9 unit associated to your agency.

K9 Module Features:

- Track Veterinary visits and all K9 unit related certifications
- Assign K9 teams and track training or certifications for a K9 team. Add attachments of certifications as PDFs
- Detailed Training and Call Out records including Weather, Terrain, and other helpful information
- Add attachments of any kind, video, PDFs, etc. to Training and Call Outs
- View monthly breakdowns of Training and Call Outs with detection success metrics
- Relate a detailed K9 incident report to an RMS or Citation record
